

ATTENTION PPO 2 AND PPO 3 MEMBERS

To make the most of your health benefits, choose a **freestanding facility** for your blood work, radiology services (x-ray, MRI, PET Scan, etc.) or other testing services and outpatient surgeries. These services performed at a network freestanding facility are covered at **100%**.

Tests performed in a doctor's office may not be considered freestanding according to the doctor offices' billing practices. If the billing practice of the doctor's office is to charge the same rate as if the test is being done at a hospital facility, you will be responsible for **10% of the cost**. This is not determined by AmeriHealth. This is determined by the billing done by the doctor's office.

For example, suppose you have an EKG done at your cardiologist's satellite office but he/she is part of a larger hospital system. If the cardiologist's office bills AmeriHealth the same as if the test was performed at the hospital, you can potentially be charged for 10% of the cost.

Unsure where to go to save money?

Example for New Jersey Residents

If you need...	You will pay less! Freestanding (Covered 100%)	You will pay more Outpatient Hospital (You pay 10%)
Blood Work	LabCorp	Kennedy University Hospital
Radiology (x-ray, MRI, PET Scan, etc.)	Larchmont Imaging Associates or South Jersey Radiology	Inspira Medical Center in Elmer
Outpatient Surgery	Voorhees Surgery Center	Lourdes Care at Cherry Hill

Find out your costs ahead of time

You can estimate how much a service or procedure will cost at a specific location using **AmeriHealth Administrator's Cost Estimator Tool**. Compare prices before deciding where to go.

To access the Cost Estimator Tool...

1. Log on to www.myahabenefits.com. Choose "My Care" at the top of the page.
2. Search health care provider information or look up a service or procedure you need.
3. See information about the average cost of care in your area.
4. Get a personalized estimate of your costs based on your health plan and what you have already paid during the year.
